

# Global Premium Products Aerosol Primer Filler

## Product Information

Global Premium Products Aerosol Primer is a fast drying aerosol acrylic primer filler for repair work on cars & motor cycles as well as on other vehicles. Can also be used as a weld-through primer for spot welding operations

---

### Properties:

It sprays to give a tough acrylic primer coating.  
It is compatible for spraying over acrylic and cellulose, but not alkyd as wrinkling may occur  
It can be overcoated with cellulose, acrylic, alkyd, P/U-alkyd and epoxy  
It is advised to spray a sample first!

### Pre-treatment / Cleansing:

Pre-cleansing with a good Panel Wipe

---

### Process:

#### Coating Procedure

Please read the directions for use!

#### Characteristics

Fast drying,  
Good filling power  
Good adhesion.

#### Colour

Grey/ / Red / White

#### Processing Conditions

from +10°C and up to 80% relative air humidity.

---

### Drying Times:

#### Set to touch Sandable

after approx. 20—30 mins at 20° C.  
after approx. 2—4 hours at 20° C.

---

### Directions for use:

Ensure surface to be sprayed is clean and free from any traces of corrosion, grease, oil or polishing agent etc. Lightly abrade the surface, shake the can vigorously for approx. 3 mins. prior to use and spray several light coats from 25 – 30cm, allowing a 10 – 15 mins. flash off time in between coats

After use, invert can and spray for a few seconds to clear the valve and nozzle. This prevents the aerosol from clogging up when using next time

### Safety Information:

Only to be used in well ventilated areas. Keep away from sources of ignition, do not smoke, eat or drink.

Keep out of the reach of children. **Caution!** Pressurised container.

Protect from sunlight and do not expose to temperatures exceeding 50°C.

For professional use only. **Caution!** Disposal only in accordance to the regulations of the environmental health authorities.
